CONFERENCE MEDAL OF HONOR WINNERS

One of the most prestigious conference awards in college athletics, the Big Ten Medal of Honor was first awarded in 1915 to one student-athlete from the graduating class of each university who had "attained the greatest proficiency in athletics and scholastic work."

The 12 institutions of the Big Ten Conference feature more than 8,200 student-athletes and only 24 of those individuals are recognized each year with the Big Ten Medal of Honor. In the 99 years of the Medal of Honor, over 1,300 student-athletes have earned this distinction.

The Big Ten Medal of Honor was the first award in intercollegiate athletics to demonstrate support for the educational emphasis placed on athletics. It was acclaimed throughout the nation, and in particular by the NCAA "as one of the significant gestures yet made in college sports." The Big Ten Medal of Honor was expanded in 1982 to include one female student-athlete from each institution. In 2014, the conference will celebrate the 100th anniversary of this prestigious award.
